

Darwin's Delights

This curriculum map provides an overview of what your child will be learning across the curriculum this half term. Learning will be linked to our focus topic: Darwin's Delights, as well as our science topic: inheritance and evolution. We will...

... as **readers**, we will engage with the book Floodland taking part in a variety of activities to support our writing and comprehension.

...investigate the life and work of Charles Darwin. We will find out about his travels, his observations of plant and animal life and how he learnt from fossils. We'll also find out about people associated with Darwin: Mary Anning and Alfred Wallace.

...in **R.E.** we will be thinking about Creationism from the viewpoint of a number of faiths?

...as **artists** we will be focusing on sketching and creating observational drawings.

...as **mathematicians**, we will be studying algebra and looking at the relationship between ratio, decimals, percentages and fractions.

...as **writers** we will be developing our informal and formal writing, improving our skills in pieces such as reports and story writing.

...as **geographers**, we will find out what the Galapagos Islands are like and make comparisons between this and the UK.

...as **scientists** we will learn about inheritance, adaptation and evolution. We'll discover how Darwin's observations have changed science and how DNA determines who we are.

...in **P.E.** we will be developing our skills in dance and improving our stretching and flexibility.

...in **Computing** we will be using computer programs to code.
