3. School social media accounts

Social media accounts for the school will only be created by the Senior Leadership Team and other designated staff members, following approval from the Headteacher. A school-based social media account will be entirely separate from any personal social media accounts held by staff members and will be linked to an official school email account.

When setting up a school social media account, consideration will be given to the following:

- The purpose of the account
- Whether the overall investment will achieve the aim of the account
- The level of interactive engagement with the site
- Whether pupils, staff, parents or members of the public will be able to contribute content to the account
- How the success of the account will be evaluated

The Headteacher will be responsible for authorising members of staff and any other individual to have admin access to school social media accounts. Only people authorised by the Headteacher will be allowed to post on the school's accounts.

Passwords for the school's social media accounts are stored securely on the school's IT network. The passwords are only shared with people authorised by the Headteacher.

All posts made to school social media accounts will not breach copyright, data protection or freedom of information legislation.

The school's social media accounts will comply with the platform's rules. The Headteacher will ensure anyone with authorisation to post on the school's social media accounts are provided with training on the platform and the rules around what can be posted.

School social media accounts will be moderated by the Senior Leadership Team.

Staff conduct

Only staff with authorisation from the headteacher will post on school accounts and they will adhere to the Acceptable Use statement.

Staff will only post content that meets the school's social media objectives, including the following:

- Reminders about upcoming events
- Good news regarding the school's performance, attainment or reputation
- Good news regarding the achievements of staff and pupils
- Information that parents should be aware of, e.g. school closure

Staff will ensure that their posts meet the following criteria:

- The post does not risk bringing the school into disrepute
- The post only expresses neutral opinions and does not include any personal views
- The post uses appropriate and school-friendly language
- The post is sensitive towards those who will read it, and uses particularly neutral and sensitive language when discussing something that may be controversial to some
- The post does not contain any wording or content that could be construed as offensive
- The post does not take a side in any political debate or express political opinions
- The post does not contain any illegal or unlawful content

4. Staff use of personal social media

Staff will not be prohibited from having personal social media accounts; however, it is important that staff protect their professional reputation by ensuring they use personal social media accounts in an appropriate manner.

Staff will be required to adhere to the following guidelines when using personal social media accounts:

- Staff members will not access personal social media platforms during school hours.
- Staff members will not use any school-owned devices to access personal accounts.
- Staff will not 'friend', 'follow' or otherwise contact pupils through their personal social media accounts. If pupils attempt to 'friend' or 'follow' a staff member, they will report this to the Headteacher.
- Staff will be strongly advised to not 'friend' or 'follow' parents on their personal accounts.

- Staff will not use personal social media accounts to contact students or parents, nor should any contact be accepted, except in circumstances whereby prior approval has been given by the Headteacher.
- Staff members will ensure the necessary privacy controls are applied to personal accounts and will avoid identifying themselves as an employee of the school on their personal social media accounts.
- Staff will ensure views posted on personal accounts are personal and are not those of the school.
- Staff will not post any content online that is damaging to the school, its staff or pupils.
- Staff are advised not to publish specific detailed private thoughts, concerns, pictures or messages on any social media services, especially content that may be considered threatening, hurtful or defamatory to others or themselves. Staff are advised that their online conduct on social media can have an impact on their role and reputation within the setting.
- Staff members will not post any information which could identify a pupil, class or the school – this includes any images, videos and personal information.
- Staff members will not post anonymously or under an alias to evade the guidance given in this policy.
- Staff will not post comments about the school, pupils, parents, staff or other members of the school community.

Breaches of this policy by members of staff will be taken seriously, and in the event of illegal, defamatory or discriminatory content, could lead to prosecution, disciplinary action or dismissal. Members of staff will be aware that if their out-of-work activity brings the school into disrepute, disciplinary action will be taken.

Attempts to bully, coerce or manipulate members of the school community via social media by members of staff will be dealt with as a disciplinary matter.

5. Parent use of social media

Parents are able to comment on or respond to information shared via social media sites; however, parents should do so in a way which does not damage the reputation of the school.

Parents will be asked not to share any photos or personal details of pupils when commenting on school social media sites, nor post comments concerning other pupils or staff members, in accordance with the Acceptable Use statement.

The Headteacher will communicate with any parent who may be seen to have breached The Acceptable Use statement or guidance in this policy.

Breaches of this policy will be taken seriously, and in the event of illegal, defamatory or discriminatory content could lead to prosecution.

6. Pupil use of social media

- Safe and appropriate use of social media will be taught to students as part of their education, via appropriate sites and resources.
- Concerns will be shared with parents/carers as appropriate, particularly when concerning underage use of social media sites, games or tools and the sharing of inappropriate images or messages that may be considered threatening, hurtful or defamatory to others.

In Online Safety lessons, pupils are taught:

- To consider the risks of sharing personal details on social media sites which could identify them or their location.
- To only approve and invite known friends on social media sites and to deny access to others by making profiles private.
- Not to meet any online friends without a parent/carers or other responsible adult's permission and only when a trusted adult is present.
- To use appropriate and safe passwords, including multi factor authentication to protect their account.
- To use age-appropriate social media sites.
- Know how to block and report unwanted communications, and how to report concerns both within the organisation and externally.

If inappropriate content is accessed online on school premises, this will be reported to a member of staff. Content will be directly reported to the Headteacher through SENSO.

Breaches of this policy will be taken seriously and managed in line with the Behaviour Policy.

7. Data protection principles

The school will obtain consent from parents at the when they start at Mulbarton Primary School, which will confirm whether or not consent is given for posting images and videos of a pupil on

social media platforms. The consent will be valid for their time at Mulbarton Primary School. Consent provided for the use of images and videos only applies to school accounts – staff, pupils and parents are not permitted to post any imagery or videos on personal accounts.

A record of consent is maintained on the school's Management Information System.

Parents and pupils are able to withdraw or amend their consent at any time. To do so, parents must inform the school in writing. Where parents withdraw or amend their consent, it will not affect the processing of any images or videos prior to when consent was withdrawn or amended. Processing will cease in line with parents' requirements following this. When requested and wherever it is reasonably practicable to do so, the school will take measures to remove any posts before consent was withdrawn or amended, such as removing an image from a social media site.

The school will only post images and videos of pupils for whom consent has been received.

Only school-owned devices will be used to take images and videos of the school community, which have been pre-approved by the online safety officer for use. Only appropriate images and videos of pupils will be posted in which they are suitably dressed, e.g. it would not be suitable to display an image of a pupil in swimwear.

When posting on social media, the school will use group or class images or videos with general labels, e.g. 'sports day'.

When posting images and videos of pupils, the school will apply data minimisation techniques, eg: blurring a photograph, to reduce the risk of a pupil being identified. The school will not post pupils' personal details on social media platforms and pupils' full names will never be used alongside any videos or images in which they are present.

Before posting on social media, staff will:

- Refer to the consent record log to ensure consent has been received for that pupil and for the exact processing activities required.
- Ensure that there is no additional identifying information relating to a pupil.

Any breaches of the data protection principles will be handled in accordance with the school's policies.

8. Safeguarding

Any disclosures made by pupils to staff about online abuse, harassment or exploitation, whether they are the victim or disclosing on behalf of another child, will be handled in line with the Child Protection and Safeguarding Policy.

Concerns regarding a staff member's online behaviour will be reported to the Headteacher, who will decide on the best course of action in line with the relevant policies, e.g. the Staff Code of Conduct and Disciplinary Policy and Procedures. If the concern is about the Headteacher, it will be reported to the Chair of Governors.

Concerns regarding a pupil's online behaviour will be reported to the DSL, who will investigate any concerns with relevant staff members, e.g. the Headteacher and ICT technicians, and manage concerns in accordance with relevant policies depending on their nature, e.g. the Behaviour Policy and Child Protection and Safeguarding Policy.

Where there is a concern that illegal activity has taken place, the Headteacher will contact the police. The school will avoid unnecessarily criminalising pupils, e.g. calling the police, where criminal behaviour is thought to be inadvertent and as a result of ignorance or normal developmental curiosity, e.g. a pupil has taken and distributed indecent imagery of themselves. The DSL will decide in which cases this response is appropriate and will manage such cases in line with the Child Protection and Safeguarding Policy.

As part of the usual communication with parents, the school will reinforce the importance of pupils being safe online and inform parents which systems the school uses to filter and monitor online use. The school will also make it clear to parents what their children are being asked to do online for school, including what platforms they will be asked to access and who from the school, if anyone, they will be interacting with online.

9. Blocked content

In accordance with the school's Online Safety Policy there will be appropriate firewalls on the school's network to prevent access to certain websites.

The school has the right to monitor staff and pupil access to websites when using the school's network and on school-owned devices.

Attempts made to circumvent the network's firewalls will result in a ban from using school computing equipment, other than with close supervision.

Inappropriate content accessed on the school's computers will be reported to an ICT technician so that the site can be blocked.

10. Cyberbullying

Any reports of cyberbullying on social media platforms by pupils will be handled in accordance with the Anti-bullying Policy.

Cyberbullying against pupils or staff is not tolerated under any circumstances. Incidents of cyberbullying are dealt with quickly and effectively wherever they occur in line with the Anti-bullying Policy. Allegations of cyberbullying from staff members will be handled in accordance with school policy.

11. Training

The school recognises that early intervention can protect pupils who may be at risk of cyberbullying or negative social media behaviour. As such, staff will receive training in identifying potentially at-risk pupils during Safeguarding Training.

Pupils will be educated about online safety and appropriate social media use on a regular basis through a variety of mediums, including assemblies, Learning for Life lessons and cross-curricular links.

Parents will be invited to eg: Online Safety cafes and provided with relevant resources such as the Knowsley Children's Safeguarding Board newsletter.

Training for all pupils, staff and parents will be refreshed in light of any significant incidents or changes.

12. Monitoring and review

This policy will be reviewed on an annual basis by the Headteacher and Governing board.

The next scheduled review date for this policy is October 2026.

Any changes made to this policy will be communicated to all staff, pupils and parents.
